

TAROT - Sacred Journey of the Soul

TAROT COUNSELING NEWS

Tarot Magic & Transformation

Tarot cards are just paper and have no magical qualities other than the ones we imbue them with. It is we who are magic and it is our magical process which is symbolized on the surface of the tarot cards in the form of pictures, symbols, and words.

The Tarot is "The royal road of the soul". The cards are the road, the pathway that we walk upon, a means to an end, while we are the means and the end. We are the journey and the destination.

Throughout the history of humankind many esoteric, mystical, and magical rituals have been honored and practiced, and modern modalities have been developed from these sources. They include religion, spirituality, science, psychology, and cultural/tribal tradition. Each and all represent a royal road or pathway to journey for those of us who wish to partake in this transformative adventure.

The Tarot can be your guide in unfolding the path of discovery and purpose in your life!
